YEAR	CLIENT	OBJECT
2016	S. Maria a Monte (PI) Municipality	Study of school transport network and of the level of integration with the public transport network
	Faenza (RA) Municipality	Road Safety Plan and Safety Audit of municipal projects
	Casciana Terme-Lari (PI) Municipality	Cycle mobility Plan
	Massa Carrara Province	Engineering services for the Public transport planning and management
	Piombino (LI) Municipality	Sustainable Urban Mobility Plan
	Pisa Municipality	Urban public transport network economic evaluation and analysis
2015	PISAMO S.p.A.	Mobility Urban Observatory
	Toscana Aeroporti S.p.A	Demand analysis for the new People Mover
	Livorno Province	Construction of the risk map determined by the transport of dangerous goods of Livorno
	AMITOUR srl di Amici Giuseppe	Engineering services for the company management
	Lastra a Signa (FI) Municipality	Traffic model for the S.G.C. FI-PI-LI road junction project
	Volterra (PI) Municip.	Assistance for the local public transport network monitoring and planning
	Siena Province	Assistance for the local public transport network monitoring and planning
	ANAS S.p.A. - Firenze	Vehicle flows survey at the junctions of San Casciano V.P. of the motorway Siena-Florence
	Abruzzo Region	Regional Freight Mobility Observatory Project
	Carrara (MS) Municipality	Project of the urban public transport line connecting with the new Hospital
	Tiemme S.p.A.	Engineering services about the demand modeling
	Lanificio R.Balli S.p.A. - Prato	Fabbricone Area recovery plan. Updating of the mobility system
	FAMAS S.p.A.	Tuscany Region passenger and freight transport simulation models
	Amico Bus S.r.l.	Vehicle fleet monitoring and control engineering services
	CFT Soc. Coop.	Freight logistic engineering services
	NOVARTIS S.r.l.	Safety project interventions on the industrial area of Rosia (SI) access networks
	Cerveteri (RM) Municipality	School Transport Service planning and support for the procedures for the tender to service award
	UNICOOP Tirreno - Piombino (LI)	Piombino center mobility system reorder operations due to the opening of the new shopping center (Urban Factory project)
	Orbetello (GR) Municipality	Definitive and executive project of the Giannella bike line
	Livorno Province	European Project SIC: Project of complementary services

2014	IDEALCOOP Coop.Soc.Onlus	Engineering services
	NOVARTIS S.r.l.	Survey and analysis of the interventions on the industrial area of Rosia (SI) access networks
	ECOAL S.r.l.	Preliminary project for the vehicular fleet management throw an Automatic Vehicle Monitoring system
	Valdera Municipality Union - Pontedera (PI) Municipality	Support for the public transport service tender and urban network monitoring service
	Tiemme S.p.A. (private transport service company)	Project of an assignment model for public transport traffic revenues and passenger movements
	Abruzzo Region - Logistic, Infrastructure and Mobility Department	"Easy Connecting" European Project Coordination
	AICE Consulting Srl (private service company)	Reorganization of the mobility system in the U.S. Army Garrison Vicenza
	Massa Carrara Province	Public Transport Network project. Public Transport services monitoring. Management of the toll-free number
	GeSTe S.r.l. - S.Giuliano Terme Municipality (PI)	Assistance and preparation of documentation and deliverables necessary for the school transport service tender
	PISAMO S.p.A. (Pisa Municipality mobility in-house company)	Technical consultant for the European Project POSSE - Promotion of Open Specifications and Standards in Europe. Elaboration of the ITS Implementation Plan for Pisa Municipality
	Orbetello Municipality (GR)	Cycling Plan and preliminary design of the bike lanes
	Union of Municipalities - Circondario Empolese Valdelsa	Planning and monitoring of the public transport network
	PISAMO S.p.A.(Pisa Municipality mobility in-house company)	Reorganization of the road infrastructure geometry for access to the bus terminal "Sixth Door"
	SIENA MOBILITA' SCARL (private public transport service company)	Traffic flows survey and analysis of at the "cordon" of Siena Municipality
	EDISISTEM SRL (private service company)	Executive urbanization project for the sector Sub-B - Pontelungo-Madonna dell'Acqua (Pi)
	Siena Province	Project, support and assistance services for the management planning of the suburban public transport network for the year 2014
	Union of Municipalities Valdera	Project and reorganization of the public transport network and definition of the low demand services
	Poggibonsi Municipality (SI)	Public ordinary and school transport network reorganization
	S. Croce sull'Arno Municipality (PI)	Public ordinary and school transport network reorganization
	Genova Province	Planning and project of the public transport network
	Pisa Province	Public Transport services monitoring. Management of the toll-free number

2014	Nuova Idealcoop (private service company)	General consultancy for public transport
	S. Giuliano Terme Municipality (PI)	Planning and project of the public urban transport network
	TiemmeS.p.A.(private public transport service company)	Survey of passenger on urban and suburban networks and implementation of a model for the demand allocation
	Pontedera Municipality (PI)	Planning and project of the public urban transport network
	Massa Carrara Province	Public transport project for low demand areas and for the accessibility to the new Apuano Hospital. Public Transport services monitoring. Management of the toll-free number
	PISA Parcheggi (private parking service company)	Genel consultancy for 2014 year
	Arch. Paolo DI NARDO	Piombino - Project Fabbrica Urbana - Study about the mobility ssystem
	Arch. Manrico LOGLI	S.Giuliano Terme - Salute e Sport Center - Accessibility study
2013	Empoli Municipality (FI)	Requalification of the public bus terminal located in front of the railway station of Empoli.
	STA Engineering Srl (private engineering company)	Preliminary project about the road network linking the SS67 and the SGC FI-PI-LI in Lastra a Signa Municipality (Fi)
	AQUA MATER S.r.l. (private service company)	S.Giuliano Terme - Study about urban mobility
	Lastra a Signa Municipality (FI)	Dynamic microsimulation about a new road junction project between S.G.C. Fi-Pi-Li and the new ring road
	Montepulciano Municipality (SI)	Planning and project of the public urban transport network
	IRPET (Tuscany Region research center)	Survey about training demand of the regional logistic company
	L'ARCA Soc.Coop. - Cascina (PI) (private service company)	Cascina - Parking demand analysis
	Lanificio R.Balli S.p.A. - Prato (private company)	Prato - Recovery plan of the ex Fabbricone area + Study about the mobility system
	PISAMO S.p.A. (Pisa Municipality mobility in-house company)	European project about ITS and Open Standard Specification (OCA-UTMS)
	Cascina Municipality (PI)	Study about the mobility system
	Portoferraio Municipality (LI)	Planning and project of the public urban transport network
	Carrara Municipality (MS)	Assistance in the preparation of the public transport network project for the "regional single tender"
	PISAMO S.p.A. (Pisa Municipality mobility in-house company)	Study about the impacts on mobility coming from the new urban area called 'Cittadella Aeroportuale'
	Union of Municipalities - Circondario Empolese Valdelsa	Monitoring, control and administrative technical support for the management/planning of the public transport network for the 2013

YEAR	CLIENT	OBJECT
2013	GeSTe S.r.l. - S.Giuliano Terme Municipality (PI)	Assistance and preparation of documentation and deliverables necessary for the transport school service tender
	L'ARCA Soc.Coop. - Cascina (PI) (private service company)	Study about pharmaceutical logistic of the ESTAV company managed from Tuscany Region
	ESAOM - CESA S.p.A. Cantieri Navali Portoferraio (private company)	Study about the mobility system dues to the realization of the variation to the General Urban Plan
	Piombino Municipality (LI)	Reorganization of the urban public transport network and support for the activities and data analysis required by Tuscany Region
	Siena Province	Project services, support and assistance for the suburban public transport network management and planning
	Livorno Province	Support activity for the Province Mobility Observatory European Project SIC France-Italy.
	SIAT S.r.l. (private service company)	Study for the evaluation of the urban public transport network operating costs
	GeSTe S.r.l. - S.Giuliano Terme Municipality (PI)	Reorganization of the school transport service
	PISAMO S.p.A. - Pisa Municipality	Regulatory Plan coordinated by the municipalities located in the area near Pisa: study for the mobility system planning and transport infrastructure project
	Ambiente Italia S.r.l. (private company)	Study about the flows generated by a new road infrastructure
	Montaione Municipality (FI)	Study to assess the market value of the registered public transport vehicles
	Genova Province	Analysis of the public transport service exercise program done by ATP in 2012
	POLICREO S.r.l. (private company)	Traffic analysis for Esselunga in Prato city
	Lucca Municipality	Technical support for the planning and management of the local public transport service - Year 2012-2013
	IRPET (Tuscany Region research center)	Research plan for the evaluation of the Area Pisana (Pisa, Cascina, Calci, S.Giuliano T., Vecchiano, Vicopisano Municipalities) mobility system functional characteristics and performance
2012	Pisa Municipality	Planning and project of the public urban transport network
	Suvereto Municipality (Li)	Project and safety coordination during the requalification of Via dei Forni
	Val di Cecina Municipalities (Volterra, Pomarance, Montecatini V.C. e Castelnuovo V.C.)	Planning and project of the public transport network integrated with the school transport service
	Viareggio Municipality (LU)	Reorganization of the public urban transport network
	UNICOOP Tirreno - Piombino (LI) (commercial distribution company)	Expansion project for the Commercial Center of Venturina (LI)

YEAR	CLIENT	OBJECT
2012	Lucca Province	Collaboration and technical support in the field of local public transport and transport engineering
	R.F.I. - EEIG CORRIDOR D (italian railway company)	Transport Demand Market study for the freight transport in the European Rail Freight Corridor n°5 from Portugal to Slovenia
	Massa Carrara Province	Technical assistance for the management of the public transport service
	SIAT S.r.l. (private service company)	Feasibility study for a new shuttle bus service
	Arezzo Municipality	Project "Requalification of the Arno area near the Canale Maestro della Chiana"
	Capannori Municipality (LU)	Reorganization of the public transport network and preparation of documentation and deliverables necessary for the public transport service tender
	Pontedera Municipality (PI)	Reorganization of the public transport network and integration with the Regional Unique Tender process
	Municipalities Union Valdera (PI)	Preparatory study to the local public transport service tender
	Livorno Province	Support activity for the Province Mobility Observatory. European Project SIC France-Italy.
	Campiglia M.ma, S.Vincenzo, Sassetta e Suvereto Municipalities (LI)	Planning and project of the public urban transport network
	Carrara Municipalities (MS)	Technical support to project the public transport network based on the requirements of Tuscany Region to integrate the network in the future Unique Regional Service
	University of Pisa - Logistic Center of Livorno	Consultancy within the integrated project "Italmed - Integration logistics and transport relations in the Italy-Southern Mediterranean Area". Feasibility analysis about six new routes (maritime and / or air) between Italy and Algeria
	Pisa Province	Europeana Project Italy-France 3IPlus -Technical support
	Lucca Province	Support and assistance for the project of the primary public transport services and for the participation to the meeting called Conferenza dei Servizi Minimi
	Pisa Province	Support and assistance for the project of the primary public transport services and for the participation to the meeting called Conferenza dei Servizi Minimi
	Massa Carrara Province	Support and assistance for the participation to the meeting called Conferenza dei Servizi Minimi
	Empoli Municipalities (FI)	Study about the mobility system dues to the realization of the variation to the General Urban Plan
	LUCENSE S.C.p.A. (private research company)	European Project Pi.Me.X. - Study for the realization of the new freight intermodal node called Scalo Merci di Capannori-Porcari
	PISAMO S.p.A. (Pisa Municipality mobility in-house company)	Management and analysis of Pisa Municipality mobility data - Urban Traffic Plan (P.U.T.) - Urban Mobility Plan (P.U.M.)
	Azienda ATAF S.p.A. (private transport service company)	Databases elaboration for the management of projects in the field of local public transport and mobility.

YEAR	CLIENT	OBJECT
2012	Pisa Province	Preliminary study for the evaluation of regional public transport service supply
	Fucecchio Municipality (FI)	Urban Traffic Plan
	Circondario Empolese Valdelsa	Monitoring, control and technical support for the implementation of obligations under the public transport service contract for the year 2012
	ESSELUNGA S.p.A. (Sesto Fiorentino - FI) (commercial distribution company)	Traffic flows survey between S.P. 126, via Fiorentina and via Valentini in Prato Municipality
	Pisa Province	Support and assistance for the participation to the meeting called Conferenza dei Servizi Minimi
	Signa Municipalities (FI)	Origin/Destination survey for the flows on Ponte a Signa
	3° MILLENIUM TRAVEL (private service company)	Planning and re-project of the public urban transport network in S.Miniato Municipality
2011	Belvedere Costruzioni Srl (private civil engineering company)	Mobility study integrated in the recovery plan of the new theater Apollo Cascina (Pi)
	University of Pisa - Department of Civil Engineering	Elaboration of a model for the automatic environmental impacts forecasting due to changes in the road infrastructure of the province of Lucca; elaboration of the Muticriteria model and of territorial sensibility maps
	Siena Province	Consulting services about local public transport planning and transport engineering
	Massa Carrara Province	European project PIMEX: Road network performance analysis in the Marina di Carrara Port Hinterland
	Genova Province	Summary analysis of the public transport exercise program done by ATP company in 2011
	Lucca Province	Calculation of the obligation service compensation for VaiBus company 2011-2012
	A.T.N. Autolinee Toscano Nord S.r.l. (MS) (private transport service company)	Project of the public transport high frequency lanes
	Signa Municipalities (FI)	Traffic flows survey
	S. Giuliano Terme Municipalities (PI)	Study on the local public transport network
	Lucca Province	Planning and re-project of the public urban transport network
	Firenze Municipality-Tuscany Region	Study and support for the Regional Public Transport Project and Conference for the tender for services (unique lot) procedures with fare and network analysis and project
	Piombino Municipality (LI)	Re-organization of the parking scheme
	SAT S.p.A. - Tuscany Airport Company - Pisa	Demand analysis for the realization of the new fast public transport service (People Mover) between Pisa Central Rail Station and Galilei International Airport
	PRADA S.p.A. (private commercial company)	Road infrastructure reorganization aimed at the construction of a shopping center for large retailers

YEAR	CLIENT	OBJECT
2011	Camaione Municipality (LU)	Traffic flows survey and analysis
	Circondario Empolese Valdelsa	Monitoring, control and technical support for the implementation of obligations under the public transport service contract for the year 2012
	SISTER srl (private GIS company)	Cross-border cooperation project between Italy and France, the so-called PIMEX project (2007-2013). Overall consultancy on the establishment of an observatory on logistics in the cross-border area
	Calcinaia Municipality (PI)	Demand analysis for a new rail station located in Fornacette
	S. Vincenzo Municipality (LI)	General consultancy for the Structural Urbanization Plan on issues concerning mobility system
	Firenze Province	Technical assistance for the definition and implementation of public transport network planning policies in the Florence province area
	Massa Carrara Province	Study on the local public transport network
	S. Miniato Municipality (PI)	Planning and re-project of the public urban transport network
2010	Portoferraio Municipality (LI)	Project of the public transport network
	CEPA Spa (private service company)	Executive project for the new road infrastructures located in Cascina (Pi)
	Unicoop Tirreno SC (commercial distribution company)	Executive Project for the requalification of Via Donatori del Sangue between Via di Vittorio and Via Matteotti and Orbetello (GR)
	BEL Srl (private engineering company)	Study of road infrastructure
	Simurg Ricerche S.r.l. - Livorno (private social research company)	Analysis of traffic flows impacts due to a new commercial and residential area in Querceta (LU) both with static techniques than with dynamic microsimulation model
	Pisa Province	Analysis of correlation between urban geographical shape and distribution of immigrated population in the main urban centers; elaboration of centrality indices by means of Geographically Weighted Regression and Space Syntax models
	University of Pisa - Department of Civil Engineering	Traffic flow data analysis for the requalification of the S.Corcordio District (Lucca)
	Poggibonsi Municipality (SI)	Urban public transport network planning activity and elaboration of the guidelines for the Urban Mobility Plan
	Coop. AMBIENTE (private company)	Study about mobility for the project of the navigation channel between Pisa and Livorno
	PISAMO S.p.A. (Pisa Municipality mobility in-house company)	Management and analysis of Pisa Municipality mobility data - Urban Traffic Plan (P.U.T.) - Urban Mobility Plan (P.U.M.)
	Lucca Province	Public transport network planning and efficiency activity
	Genova Province	Summary analysis of the public transport exercise program done by ATP company in 2010
	Fucecchio Municipality (FI)	Mobility system service level and performance evaluation
	Lastra a Signa Municipality (FI)	Mobility system performance evaluation for the area around Ponte a Signa
	Pisa Province	Technical support service for the planning and management of local public transport and related contract management

YEAR	CLIENT	OBJECT
2010	S. Giuliano Terme Municipality (PI)	Functional reorganization study for the Structure Plan Variant
	Massa Carrara Province	Survey on public transport passengers frequentation for the lines interesting Lunigiana area
	Municipalities Union Valdera (PI)	Study about re-organization of the public transport network
	Genova Province	Assistance and preparation of documentation and deliverables necessary for the public transport service tender
	Piombino Municipality (LI)	Study about parking demand
	Circondario Empolese Valdelsa (public administrative body)	Monitoring, control and technical support for the implementation of obligations under the public transport service contract for the year 2010
	Lucca Province	Elaboration of technical documents about the public trnasport service in the whole province
	Massa Carrara Province	Technical support service for the planning and management of local public transport and related contract management
	Crespina Municipality (PI)	Urban Regulatory Plan Variant--agrigarden area. Project for the upgrade of its road sections
	Circondario Val di Cornia (public administrative body)	Elaboration of the Mobility Plan for the re-organization of the accessibility and transport system and increase of the public transport system in the Val di Cornia area
	Siena Province	Consultancy on the planning of local Public Transport and support to the local Bureau for Public Transport for the management of the auction for the service contract tender
2009	Campiglia Marittima Municipality (LI)	Re-qualification project for the area outside the rail station
	University of Pisa - Logistic Center of Livorno	Consultancy for the feasibility study of an agribusiness platform and a general market near "Amerigo Vespucci" Guasticce Interport (LI). Analysis of freight traffic by land and sea (port of Livorno), localization analysis
	UNICOOP Firenze S.r.l. (commercial distribution company)	Study of the impact on the road network of the new supermarket planned in Pontedera using a comparative static gravity model
	Pisa Province	Development of a study about the safety and quality of life in two neighborhoods of the city of Pisa, safety in daily trips (roads multimodal)
	University of Florence - Department Logistic and Transport Models	Elaborations to verify the logistics park operation by recourse to queuing theory and micro-simulation traffic near the Fortezza da Basso.
	Circondario Empolese Valdelsa (public administrative body)	Overall consultancy for public transport network and for the draft of documentation related to the public auction for the local Public Transport contract
	PISAMO S.p.A. (Pisa Municipality mobility in-house company)	Project for a Urban Mobility Observatory in the town of Pisa.
	Genova Province	Summary analysis of the public transport exercise program done by ATP company in 2009
	Pisa Province	Technical support service for the planning and management of local public transport and related contract management

YEAR	CLIENT	OBJECT
2009	PISAMO S.p.A. (Pisa Municipality mobility in-house company)	Dynamic micro-simulation of various design solutions for the re-organisation of traffic on the roads called Via Battisti and Via Conte Fazio
	Pisa Province - Local Public Transport Consortium	Extension of the contract for consultancy on the management and control of the local Public Transport service contract
	Massa Carrara Province	Activities in the context of the "PIMEX" european project: integrated logistic platforms for the developmento of import-export in the cross-border area. Project for innovative public transport services and for disabled people barriers removal
	Livorno Province	Planning of the new public transport network for the whole province and document elaboration for the Public Transport services tender
	Lucca Province	Project about freight transport related to the French-Italian project called "PIMEX".
	Lucca Province	European Project "NO FAR ACCESS": feasibility study on a counseling centre
	La Spezia Province	European Project "NO FAR ACCESS": feasibility study on the design of innovative public transport services
	Massa Carrara Province	European Project "NO FAR ACCESS": feasibility study for the removal of architectural barriers linked to public transport service in order to ease disabled users.
	Borgo S. Lorenzo Municipality (FI)	Re-organization of the intersection between V.le della Repubblica and V.le della Resistenza
	Circondario Empolese Valdelsa (public administrative body)	Monitoring, control and technical support for the implementation of obligations under the public transport service contract for the year 2009
	PISAMO S.p.A. (Pisa Municipality mobility in-house company)	Feasibility study for a new Bus Rapid Transit service from the center of Pisa to the Cisanello Hospital
	Poggibonsi Municipality (SI)	General public transport service and network re-organization project
	Pisa Province - Local Public Transport Consortium	Re-organization of the public transport network in the "aree del comprensorio del cuoio, della Valdera e della Val di Cecina"
	Genova Province	Summary analysis of the public transport exercise program done by ATP company in 2008
	Tuscany Region - Transport Department	Transport data elaboration for the Region Transport Observatory
	Orbetello Municipality (GR)	Urban Mobility Plan project
	Pontedera Municipality (PI)	Evaluation of the traffic demand for a new bridge
	Pisa Municipality	Traffic flows forecasting for the new road between Pisa 'Galilei' International airport and the area near the Dock shipbuilding Pisana
	Pisa Municipality	Re-organization of the road network around Pisa 'Galilei' International airport
